“I'm a creative, self-motivated graphic & web designer from Cape Town with over 12 yrs experience in print, web and identity design.

I'd say I'm down to earth, full of energy & a hard worker. which means I can be smart & fun at the same time! I would consider myself pretty fortunate as my profession simply lets me do what I love all day, every day!

I love all things design and seek balance between work & life. Im always seeking new challenges and possibilities for personal growth.”
